

Plotly in R Markdown Presentation

A fashionable way of presenting information

Who? SNTagore

When? 10 June, 2020

Gapminder

Gapminder is an interesting organization. I first was introduced to them through a Ted Talk.

Using their data, I will attempt to recreate their plotting style on Life Expectancy vs. Child Mortality.

Life Expectancy vs. Child Mortality

data shown is restricted to after the 1950s to improve representational accuracy. This is data based on available data, and does not assume that the numbers were accurately taken.
